

Dynalite System Integration

DDNG-BACnet J-8025 Platform N4

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

Données du produit

Dynalite System Integration

Renseignements généraux

Remarques	Please download the Lighting - Product Data Sheet for more information and ordering options
-----------	---

Conditions d'utilisation

Plage de températures ambiantes	-20 to +50 °C
---------------------------------	---------------

Données de produit

Nom du produit de la commande	DDNG-BACnet J-8025 Platform N4
-------------------------------	--------------------------------

EAN/CUP – Produit	8718696888353
Code de commande	913703247009
Code de commande local	.
Numérateur – Quantité par emballage	1
Numérateur – Emballages par boîte extérieure	1
Matériau SAP	913703247009
Poids net (pièce)	403,000 g
